Clinical Elective Preceptorship Programs in another Province and Outside the CMU Campus

- The Department of Family Medicine
  
  The Department of Family Medicine is a primary medical care department that actively functions in teaching, research, and medical service in partnership with other departments and related units to provide quality, comprehensive, integrated care to the individuals, families and communities. We provide first contact and continuity of care to all patients and allow medical students to understand how the integrated biomedical, socioeconomic and behavioral sciences influence the diagnostic process and management decisions based on evidence based medicine. We also provide alternative and complementary medicine including acupuncture and Thai massage.

- The Department of Community Medicine
  
  The Department of Community Medicine has expertise in the field of community medicine. We have also been a pioneer in air quality research, specifically smog–related environmental health. Short course programs on “Advanced Statistics in Community Medicine Research” and “Field Experience in Community Medicine” are provided.

You are not be able to change your department after the application offer has been confirmed.

Scheduled Time Periods: Schedules will be based on Monday to Friday. Applicants should review the national holidays that may affect the availability of programs.
